PADUCAH, KY., TUESDAY EVENING, MAY 28, 1901

10 CENTS PER WEEK

LARGE CROWD

The Confederate Reunion Opened at Memphis This Morning.

MANY KENTUCKIANS THERE

Supreme Court of the United States Adjourns Without Deciding Two of the Issued Cases.

MADISONVILLE DISORDER MUST CEASE

MANY KENTUCKIANS THERE.

Memphis, May 28.—The Confederate reunion is in full swing, with Kentuckians occupying the central position. Mayor Williams delivered the address of welcome to the city, and Gov. Hobbs McMinn in behalf of the state.

The reunion opened with threatening weather, but a large crowd. Gen. Gordon called the meeting to order, and after the address of Gov. McMinn and Mayor Williams, Ex-Senator Torrey delivered an address of welcome. Then John H. Gordon was tendered a rousing ovation upon assuming the chair and gavel, and spoke with unusual eloquence. He was followed by Col. Bennett Young, of Louisville, chief orator of the day.

General Joe Wheeler and Gen. Fitzhugh Lee were cheered to the echo as they entered the hall and were forced to speak briefly. The meeting adjourned until tomorrow, and the flower parade was postponed until tomorrow on account of threatening weather. Looks as if Louisville will get the most reunion.

SUPREME COURT ADJOURNS.

Washington, May 28.—The supreme court adjourned until October, without deciding the other two insular cases. The administration is greatly pleased with yesterday's decision, saying that it was a big victory for the nation.

APPOINTED A CHAIRMAN.

Philadelphia, May 28.—The Presbyterian assembly appointed Moderator Milton chairman of the creed revision committee.

MORE POLICE.

Madisonville, May 28.—The city council has ordered five additional day and ten additional night police to do duty and suppress the lawlessness that has been so prevalent since the mining troubles began.

JUMPED INTO A CISTERN.

Frankfort, May 28.—Mrs. Mary Hackett, a well known widow of this county, attempted suicide today by jumping into a well, but was fished out, a better, though wiser widow.

WANT RECEIVER.

Frankfort, May 28.—The state commissioner will ask a receiver for the Enterprise insurance company, of Lexington, Ky.

OIL IN KENTUCKY.

Monticello, Ky.—An oil well was struck yesterday which is the biggest producer in the state, flowing six hundred barrels in thirty-six minutes before it could be shut off. Excitement is at a high pitch and leases have gone sky high and every train brings many prospectors.

DIED OF PARALYSIS.

Mr. Wyatt Sherron aged 85, of the Massie plantation, died last night from paralysis, leaving a wife and two children. The funeral will take place tomorrow. Burial at the Sherron graves yard.

SUNDAY SCHOOL WORKERS.

THE TWENTY-SEVENTH ANNUAL CONVENTION BEGAN AT OWENSBORO TODAY.

The twenty-seventh annual convention of the Kentucky Christian Missionary and Sunday School Association began today at the Christian church in Owensboro, and lasts two days.

The association is composed of thirty-three counties in Southern and Western Kentucky. A large attendance is expected.

The last convention was held at Morganfield, at which time the following officers were elected:

President, M. E. Webb, Trenton. Secretary, J. W. Fagon, Corydon. Corresponding secretary and treasurer, J. W. Gant, Elkton. General Evangelist, E. J. Willis, Hopkinsville.

Since the organization of the association twenty-six years ago, the membership of the Christian church has grown from 8,000 to 30,000. During the last eighteen years fourteen congregations and 140 Sunday schools have been organized, 56 houses of worship have been built, and \$150,000 raised. During the last year about \$12,000 was raised for the work.

The Christian Woman's board of missions will hold its session on the evening of the 29th. Mrs. Fannie Gish, Sargeant, of Hopkinsville, is the president. The addresses of welcome will be delivered by Mrs. S. W. Bedford and Mrs. Milton Gant.

NO SETTLEMENT

AN ARBITRATION COMMITTEE APPOINTED LAST NIGHT.

The Street Car Differences to Be Considered When Mr. Wallace Returns.

It is probable that nothing towards a settlement of the street car troubles will be attempted until General Manager Wallace returns from Texas, which will likely be tomorrow.

Last night the Central Labor union met at its hall, over George Bernhardt's, and the result was the appointment of a committee of seven, composed of: Wm. Hoffman, of the Tinnery's union; D. W. Farrow, of the Painters' union; M. A. Boyson, of the Machinists' union; F. G. Davis, of the Plumbers' union; and Samuel Simon, of the Leather Workers' union.

The committee met this morning and formulated plans for arbitration, but the only thing given out was that Mr. Wallace's arrival was awaited, and nothing would be done until he returns.

CLASS CONFIRMED.

A class of seven was confirmed at the Evangelical Lutheran church Sunday. They are: William and Frank Meyer, Ruby and Lillian Kettler, Ross Richardson, Alice Woods and Laura Banner.

When the liver fails to secrete bile, the blood becomes loaded with bilious properties, the digestion becomes impaired and the bowels constipated. FERRINE has a direct action on the liver and excretory organs, and a few doses will cure any case of biliousness. Price 50 cents. DuBois, Kolb & Co.

Don't despair because you have a weak constitution. The vitalizing principle of FERRINE will assuredly strengthen it. It is a very drop of FERRINE there is a life. There is a stimulating, regenerating power, unequalled in the whole range of medicinal preparations. Price 50 cents. DuBois, Kolb & Co.

MET AT CITY HALL

President W. H. Pitcher Delivers the Annual Address—Delegates Coming in Rapidly.

SESSION LASTS THREE DAYS

The fourth annual meeting of the Tri-State Dental association convened this morning at 10 o'clock in Elks hall. On account of the noise made by the laundry, the delegates adjourned to the council chamber at the city hall. Rev. B. E. Reed pronounced the invocation and then R. T. Lightfoot welcomed the visitors.

President W. H. Pitcher, of the city, delivered the annual address, as follows:

Gentlemen: It is with much pleasure and deep felt gratitude, that I feel the honor you have bestowed upon me by electing me to preside over you at the beginning of a new century. We have great reasons to be proud of the past and greater reason to be hopeful of the future. We leave the old century behind us, holding on to its achievements and christening its memories and turn with hope to the new, with all its vast opportunities, that which will make it most useful, most beneficent, most sympathetic toward human suffering. In all undertakings in life, in whatever calling, three things are absolutely necessary to success, namely, adaptability, qualification and liking. You surely must fail if you cannot adapt yourself to your calling by a natural or acquired tact, to that which you are called upon to do and a qualification by education and practice which shall give confidence to the brain and skill to the hands. Love is the fulfilling of the law, and if you have not are lacking in one of the essentials to success. Not that love that shall be vain and puffed up over the seeming respectability of the calling, but as a means to an end. Loving it, because through it you are enabled to benefit humanity and relieve human suffering. In this day of money making and the chasing of the almighty dollar, I am afraid there are too many who lose sight of what was taught them in their Alma Mater getaways, do their work too quickly, not thorough, they are too anxious to get their grip on the dollar and let the failures take care of themselves. There are many disagreeable things and only a few pleasant ones in this most fascinating, nerve racking, disagreeable profession in the world. But in all candor I will appeal to you who have borne the burden and heat of the day in dentistry, if knowing what you do after the many years in the harness, would you desire to spend another lifetime in the service, for the mere dollar and cents that go with it? There may be those who care not for humanity or human obligation, but every honest, conscientious dentist, will first consider his patient's interests and welfare, before he does his own. Be truthful and honest with your patients, never taking their money unless you can give an equivalent, you should refuse to serve them if you know you cannot benefit them, otherwise it would be robbery. You will find those who will not appreciate your services at any price, let me say after years of experience, to all such give a white berth, never caring to serve them except maybe to relieve them temporarily, let them alone as much as possible, they will do you no good or themselves either. Let us remember that he would attempt to vitiate public taste for worthy merit curves insinuating poison, lives only to bury his own success and cultivate the appreciation of his associates, for the lofty manhood he disdains to honor. The individual who desires friends must prove himself a friend. It is so with societies. They must be managed to compensate those whom we wish to attract. To gather in and supply instructions and entertainment to the dentists who have left their homes and offices and come down here to swap their ideas with us. If the candidate who wishes to join this society is legally qualified to practice and promises to be governed by the rules of this society it is enough. There is little use in cultivating sentiment against the dentist of the masses and then expecting him to fraternize on present society terms. It is the business of societies to teach and demonstrate the benefits of an ethical life, the profit of correct practice and the nobility of our calling. If a college education and society applications do not develop courtesy for the opinion of others, tolerance, a spirit of helpfulness and an earnest desire to do one's best, all I have to say, they fail of a high mission. Increased knowledge has never brought about blessings to the world. Membership in this society would strengthen my dentists' attachment to his profession, a society which was instituted and managed for no personal or selfish gain and free from the machinations of any clique to encourage and deepen the spirit of brotherhood, to bridge the chasm of ethical separation between the liberal and the exclusive elements and induce dentists to pull together for our common improvement. If the honor and advancement of dentistry is to be preserved, the dental society must be preserved, and no society dependent upon voluntary municipal service of its members is going to succeed upon other lines than ethical ones and it behooves all honest men in the profession to rise against the insidious practice of advertising.

Gentlemen, I believe the members of this society will have to do some missionary work if we improve on this line. As I look into your faces today, realizing that the true and tried members of this society, a recognition of what combined effort springing from pure motives can do, let us as a body and profession in future, empty the glorious results of noble lives into the reservoir of true, professional manhood and let each individual work for its upbuilding and appoint himself a committee of one to bring in new members, and urge you all to promote the spirit of brotherly love and this society will be bound to increase in numbers and usefulness. We will then erect for ourselves a monument which age will not erode or time efface. All things I thought I knew, but now confess, The more I know, I know I know the less.

SUPT. RENSHAW

Will Come Tomorrow, and While Here Will Complete the Agreement With the Machinists.

SEVERAL OFFICIALS HERE

A New Coal Chute Will Be Built in the Local Yards—Train Strikes a Wagon Near Corydon.

THE REUNION TRAFFIC LARGE

Superintendent of Machinery William Renshaw will probably arrive in the city tomorrow. He is on his regular tour of the road and is now on his way to New Orleans from Chicago. His principal work will be to complete the recent agreement with the machinists. The maximum has been fixed at 30 cents per hour but it is not every machinist that will get this rate. The awards of merit as they may be called will be made out in regard to the length of time the employee has been in the service of the road. Those who have been in the employ of the company over a certain length of time will be given 30 cents per hour and the rate of pay for the remainder of the employees will also be fixed. This will be the most important business of Mr. Renshaw's visit. A report has been received that the machinists here are not satisfied with the agreement reached by the machinists delegation and the I. O. officials but the local men seem to be satisfied and also seem to understand the agreement perfectly in regard to the pay rate. This will be done in all the places where Mr. Renshaw visits and it is not an adjustment with the machinists but the more completion of the agreement.

Assistant Superintendent of Machinery William Renshaw, of Chicago, is in the city. He is on his regular southern business tour. He has been in the city since he arrived and has completed an inspection of the local shops.

The officials have agreed to build a new coal chute. The one in use now is in the shop yards and is slightly inconvenient and when the new chute is built it will be torn down and more room in the shop yards made. The exact location of the new chute has not yet been decided on but it is about settled that the location will be south of the train dispatcher's office. The work of construction will begin in time to have the chute completed by the next busy season.

The First regiment band of 35 pieces passed through the city this morning on route to the reunion from Cincinnati.

Fifteen cars of piping passed through the city yesterday morning for the Beaumont oil fields. The piping was shipped from Ohio and was one of the biggest shipments of piping ever sent through Paducah.

Superintendent H. U. Wallace and Roadmaster L. A. Downs arrived in the city last night. Mr. Downs went through to Fulton, but returned on the morning accommodation.

There will be no special trains run out of this city today. The specials yesterday handled all the superfluous travel and the regular trains will handle the remainder of the travel without any trouble.

Mr. R. E. Brooks, of Madisonville, Tenn., who was appointed to succeed Mr. C. F. Toussay as the local night man at the I. O. ticket office has thrown up his job. He went home several days ago to make arrangements to accept the position but wired Mr. Jorgenson, the chief dispatcher, that he would not accept the position. Mr. C. Wallace, of Greenville, Ky., an employee of the I. O., at that place, has been given the office and he is now in this city learning the office and becoming familiar with the duties. Mr. O. R. Toussay, the former night man, will probably be transferred to the local freight office.

Superintendent H. U. Wallace arrived in the city today. Mr. David Sloan, superintendent of construction, of the I. O., arrived in the city yesterday in his private coach No. 6, and will stop here a day or two. It is not known what his business is but there has been some talk of removing the coal chute now in the old shop yards to the new yards. Nothing definite could be learned of the subject but the removal will probably be effected.

There were seventeen coaches on the afternoon train from Evansville and other points along the I. O. all loaded to the overflowing on route to the Memphis reunion. The veterans got out of the coaches and headed by a band paraded along the depot platform until the train was ready to start again. There was a large crowd out

OUTLOOK FOR CONSUMMATION BRIGHT

Messrs. T. J. Scott, John W. Harrison and E. H. Simmons, of St. Louis, arrived on the morning train from St. Louis en route to Grand Rivers, Ky., to inspect the property there.

These gentlemen, as stated several weeks ago in the Sun, have an option on the Grand Rivers property for \$250,000, but have closed no deal for it. They were up about a month or six weeks ago, and then inspected it and the Hillman property, the latter having since been purchased for \$150,000.

The principal hitch in the negotiations for the Grand Rivers property, according to reports, is that there might be difficulty in getting a clear title to it, owing to the litigation in which it has been involved for several years past.

Mr. Scott said to a reporter at the Palmer House this morning, when

The principal hitch in the negotiations for the Grand Rivers property, according to reports, is that there might be difficulty in getting a clear title to it, owing to the litigation in which it has been involved for several years past.

Mr. Scott said to a reporter at the Palmer House this morning, when

asked about the deal: "Well, we are still negotiating, but nothing definite has been done. We are going up now to look over the property, and may in about two weeks, be ready to give you something. At present, however, there is nothing settled about the deal."

The three gentlemen, all of whom are prominent St. Louis capitalists, left on the 11:35 train for Grand Rivers, and will return in a day or two. Col. Scott is well known in Paducah, having at one time been here at the head of the iron furnace, on South Third street.

The gentlemen represent large interests, and recently purchased the Hillman property in Lyon and Triggs counties, comprising 65,000 acres and two furnaces, for \$150,000. They will operate the furnaces in that section of the state on a large scale when they come into control of them, and possibly make Southwest Kentucky one of the most mining centers in the state.

Mr. Simmons is a member of the hardware firm of Simmons & Co., of St. Louis, the son of one of the proprietors.

THE COMMITTEE MEETING.

The meeting of the three committees, one from the council, one from the board of health and one from the Commercial club, will be held Wednesday evening in Dr. Robertson's office, instead of at the city hall. It is expected that it will be a lively meeting.

DAILY THOUGHT.

Resolution—Resolve to perform what you ought; perform without fail what you resolve.—Benjamin Franklin.

Some of the members of the United Presbyterian assembly at Des Moines, Iowa, have decided that no member of a secret order can go to heaven. The reasons were many and varied, and all about as sensible as that of the negro delegate who said that men belonging to secret orders will never go to heaven because they are compelled to keep secrets from their wives. While the theory advanced by the dear brethren may find favor with a few wives who object to their husbands knowing anything they can't tell, the men will doubtless continue to practice fraternalism. If the imbeciles who are always denouncing fraternities are to compose the population of heaven, the average man will join some secret society to make sure of never getting there.

In Paris the dentists now pull teeth to music. If there is an unusually obstreperous tooth, the rag-time is turned on, and the tooth eradicated without pain in a hop skip and a jump. Each degree of seriousness has its particular kind of music, and the plan is said to be very successful, and is materially conducive to tooth-pulling. It has become a positive pleasure, say the up-to-date dentists, to have teeth pulled. There are no after effects from either chloroform and if you get a free concert with your work. The plan ought to become popular in America.

The West Point cadets recently suspended will appeal to the secretary of war, and if they fail to obtain recognition will seek relief from President McKinley. It is said that all the present trouble with the fractious youths was over the throwing of a biscuit across the table. They all roast Col. Mills, who is in charge of the institution, and claim he has broken faith with them. It is evident since the recent ombudsman, however, that there will be no more "rough houses" there.

Mr. Thomas W. Lawson, of Boston, is to be allowed to enter the cup race after all. Public sentiment was so strong in condemnation of the unfair methods of the New York Yacht club that it was finally compelled to accede to the demands. Mr. Lawson is a true sportsman, and the general public, which appreciates fair play, will be pleased to learn that his yacht will be given an opportunity to defend the American cup.

It seems the Jewell and the Morning Star have had a race, which took place last Sunday. The race was hotly contested, and most exciting all the way from Evansville to Henderson, but the Jewell, although the "smallest horse," got there first, to the surprise of everybody, as the Morning Star has been so extravagantly puffed up by Evansville and Louisville papers in every particular, and her speed qualities especially, the general river public were not prepared for such a result as the Morning Star is a big side wheeler, beautifully modeled and built with a view of being a speeder.

Capt. Tom Reeder, formerly owner of the Besse Smith, who sold her a few days ago to parties at Wheeling, W. Va. left this morning for his home near Southon, Ala., via rail. Capt. The readers of this paper will be pleased to learn that there is at least one dreadful disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CENNEY & CO., Toledo, O. Sold by druggists. The Hall's family pills are the best.

COMPARISONS SHOW

Why you should insure in the Mutual Benefit Life Insurance Company, of Newark, N. J.

Because—During the last 10 years, the Equitable for instance, has paid \$23,906,297.38 in dividends to its policyholders, which largely exceeds the AMOUNT paid in dividends by any other company during the same period. (Equitable Record, Spring Number) The Amount WAB larger, because the premium receipts were larger. The RATIO of dividends to premiums as compared to other companies stands—

Company	1901 to 1900 Inclusive. Premium Receipts	Dividends to Policyholders	Ratio of dividends to Premiums Per Cent
Mutual Benefit	82,453,547	16,632,856	20.47
Mutual Life of Ky.	4,222,281	470,364	10.85
Northwestern Milwaukee	126,477,177	16,248,991	12.85
S. V. Life of N. Y.	2,763,549	20,859,610	6.29
Equitable of N. Y.	37,659,591	23,595,797	6.26

MORNING MARRIAGE

MISS EMMA M'KNIGHT AND MR. HENRY BRADLEY MARRIED

Today—It Was a Quiet and Pretty Home Wedding. Left on a Week's Bridal Trip.

The marriage of Miss Emma McKnight and Mr. Henry L. Bradley took place this morning at 7 o'clock at the home of the bride on West Broadway. It was a very pretty home wedding in the presence of 50 or more relatives and friends of the popular young couple. The ceremony was impressively performed by Dr. G. W. Briggs, of the Broadway Methodist church.

The bride looked very charming in a stylish light cloth traveling gown, and carried a gorgeous bouquet of "American Beauties."

Miss McKnight and Mr. Bradley are among the most popular of Paducah's young society people and have a host of friends to give them congratulations and good wishes.

They left at 8 o'clock on a bridal trip to St. Louis and Terre Haute, and will be gone a week or longer.

SAD END.

MISS KATE TULLY DIES AT THE HOPKINSVILLE ASYLUM.

The sad news reached the city today that Miss Kate Tully died this morning in the Hopkinsville asylum from pneumonia. County Judge Tully was called to Hopkinsville yesterday and found her in a dying condition. She had been gradually weakening since she was sent there a few weeks ago, and her death was no surprise, although it was quite a shock to her many friends.

Miss Tully was, until her mind failed her through illness a short time ago, one of Paducah's brightest and most popular young women. She was next to the eldest daughter of Judge and Mrs. Tully, and had been for seven years employed by Mr. H. G. Caldwell as bookkeeper of the Paducah Building Trust company. She was about 27 years old, and leaves, besides her parents, two brothers and two sisters.

The remains will be brought to the city this afternoon at 1 o'clock and the funeral arrangements will be made later.

NOTICE TO OWNERS OF DOGS.

After Monday, June 3, all owners of dogs on which the license shall have been unpaid will be warranted before the city court, and fines imposed upon such according to ordinance together with the enforced payment of the required license. This order will be rigorously prosecuted.
